

# HP Clean

POWERFUL CLEANER WITH DEEP CLEANING EFFECT

- ✓ For natural soiling
- ✓ Solvent and acid-free, safe on all materials
- ✓ Skin friendly, biodegradable

## Technical Info

- Colour: green.
- Condition at room temperature: liquid.
- Flammability: 0.
- Solubility: entirely water-soluble.
- pH: 9.
- Biodegradable: yes.
- Toxicity: non-toxic under normal use, do not ingest.
- Shelf life: 24 months, in closed original packaging, dry, cool and frost-free.
- Safety measures: Please consult the safety data sheet.

## Packing

|                              |           |
|------------------------------|-----------|
| HP Clean - drum 25l          | 492025000 |
| HP Clean - drum 5l           | 492005000 |
| HP Clean - bottle 1L         | 492001000 |
| HP Clean - bottle 1L (6 pcs) | 492006000 |
| HP Clean - barrel 210l       | 492200000 |

## Product

### Characteristics

With a strong penetrating effect which lifts the dirt.

### Applications

- Cleaning of all surfaces: walls, floors, plastics, stone, wood, etc.
- Cleaning of all vehicles (inside and outside): car, motorbike, caravan, boat, etc.
- Cleaning of heavily soiled textiles.
- Solvent-free degreasing of work pieces prior to bonding, sealing, welding, coating, etc.

## Use

- Cleaning and degreasing with normal soiling
  - Apply HP Clean to the dirt or grime (always from below to above).
  - Rub in, rinse with water and rub dry.
- Cleaning and degreasing if heavily soiled
  - Apply HP Clean to the surface and allow to work in for +/- 5 minutes (depending on the degree of soiling).
  - When applied to vertical surfaces we recommend working from the bottom up.

- In case of heavy soiling and porous surfaces, scour with a semi-hard brush.
- Afterwards rinse with clean water.
- Repeat if necessary.
- As a strong in-depth cleaner (e.g. oil stain in concrete)
  - Squirt Tec7 Cleaner on oil stain and allow to work in for min. 5 minutes.
  - Scour lightly with semi-hard brush and once again squirt with Tec7 Cleaner.
  - Allow to work in for a minimum of 5 minutes.
  - Now apply copious amount of HP Clean to the soiling and allow it to work in for a minimum of 5 minutes.
  - Scour lightly with semi-hard brush.
  - Once again apply HP Clean to the soiling and allow to work in.
  - Remove the dirty soap residues with clean water using a garden hose, or even better a highpressure cleaner.
  - If necessary, this treatment may be repeated.
